Year:	2017
Project Name:	Camille Bloch Headquarters Courtelary
Client:	Camille Bloch
Lighting By;	Slight Energy SA Vevey
Photographer:	Mark Bierbooms AEG
Tags:	Culture ; Infrastructure

Project description

In Switzerland, everybody knows and loves Ragusa and Torino – and has for many years. Camille Bloch started the family business in 1929 and today the third generation of chocolate makers is responsible for some 3,700 tonnes of chocolate being manufactured annually.

We are very proud to play a small part in the newly opened addition to the Camille Bloch headquarters in Courtelary, in the Bernese Jura. Our partner in Switzerland, Slight Energy from Vevey, has signed for the lighting of the building, incorporating our Dark Light Wall Washers to highlight the company logo and the entrance.
